BIOMÉRIEUX LAB CONSULTANCY

LAB DESIGN ASSESSMENT

PIONEERING DIAGNOSTICS

CREATE YOUR TANGIBLE LEAN LAB

Your lab faces a unique set of routine challenges – as well as some extraordinary ones. What if you could transform these challenges into daily performance excellence?

A Lab Design Assessment by bioMérieux Lab Consultancy is the launchpad for your **tangible Lean lab**. In close collaboration with you, we conduct a full assessment of your lab design needs over three axes: **People. Process. Technology**.

It only takes about five days to action-plan your lab's very own Lean model with you. When you implement your plan, you'll measurably save time and costs, and be empowered on **return on investment**.

“The work accomplished helped us to rethink resources organization and the ease-of-use of workspace. The new microbiology lab layout permits to optimize space (otherwise, a relocation to a larger site would have been necessary) easily, efficiently handle peaks of workload.”
